

Quick Scan & Gap Analysis

The result-enhancing labour efficiency approach for retail

Jurjen de Vries

RETAILMANAGEMENT & EFFICIENCY

“IMPROVE THE EFFECTIVITY AND EFFICIENCY IN YOUR RETAIL ORGANISATION”

Jurjen de Vries retail-management & efficiency is an independent consultancy company with more than 30 years of experience in the field of efficient organisation of labour in retail.

Our areas of expertise are Efficiency Consultancy and WorkForce Management Consultancy. We are proud of our European Retail Labour Standards (database) which houses labour standards for a wide range of retail customers. More than 5.000 stores use our labour standards on a weekly base to forecast their workload.

Our result-enhancing approach, database and toolkit are extensively tested and have proved themselves both nationally and internationally.

One of our products is the Quick Scan & Gap Analysis

GOALS OF THE QUICK SCAN & GAP ANALYSIS

- Gain insight into labour hours budget per store, per department, per activity;
- Gain insight into the 'gap' between realised productive hours and the for your organisation created labour hours budget per department (potential);
- Gain insight into how to improve effectiveness and efficiency in your organisation in relation to customer orientation.

OUR RESULT-ENHANCING APPROACH

- Visits to a selection of your stores (small, medium, large) by one of our experienced consultants;
- Study of your retail formula policy;
- Identification of formula-specific activities and estimation of their impact;
- Identification of the most important parameters for your stores (small, medium, large);
- Calculation of weekly labour hours budget using our European Retail Labour Standards (database), based on *your parameters, your policy and your specific activities*;
- Discussion on short-term and long-term goals on improval of effectiveness and efficiency in your organisation;
- Comparison of realised hours with the labour hours budget, Gap Analysis;
- Run time of this project will be around two weeks, depending on availability.

RESULT

A report containing:

- Weekly labour hours budget for three stores per department, based on your parameters, your policy, your specific activities and European Retail Labour Standards (database);
- Comparison of realised hours with the labour hours budget, Gap Analysis;
- Proposals to improve the effectivity and efficiency in your organisation.
